

Electronic Supplementary Information for: **Digestive diversity and kinetic intrigue among heated and unheated β -lactoglobulin species**

Simon M. Loveday, Malleswara R. Peram, Harjinder Singh, Aiqian Ye, Geoffrey B. Jameson

Circular dichroism spectra of pepsin in simulated gastric fluid incubated at 37 °C.
A: Near UV.

B: Far UV.

Changes in sample pH during peptic digestion of native β -lg in simulated gastric fluid
