

Direct synthesis of monodispersed thiol-functionalized nanoporous silica spheres and their application to a colloidal crystal embedded with gold nanoparticles

Tadashi Nakamura,* Yuri Yamada and Kazuhisa Yano

Toyota Central R&D Labs., Inc., 41-1 Yokomichi, Nagakute, Aichi, 480-1192 Japan.

Electronic Supplementary Information

Fig. S1 shows a TEM image of SH(0.2)-SS. It can be seen that nanoporous channels radiate toward the surface in the sphere.
