

3D scandium and yttrium arenedisulfonate MOF materials as high thermally stable bifunctional heterogeneous catalysts

Josefina Perles^a, Natalia Snejko^b, Marta Iglesias^c and M. Ángeles Monge^{d*}

Supplementary Information:

Experimental and calculated X-Ray powder patterns for **RPF-12**, **RPF-13** and **RPF-14**

IR spectra of **RPF-12**, **RPF-13** and **RPF-14**
