

**Electronic supplementary material** to: Structural studies of N-(2'-substituted phenyl)-9,10-dihydro-9,10-ethanoanthracene-11,12-dicarboximides by X-ray diffraction and NMR spectroscopy – Proofs for CH/ $\pi$  interactions in liquid and solid phases (New J. Chem.)

### Molecular packing and intermolecular CH/ $\pi$ interactions of compound 3

CH/ $\pi$  interactions indicated by dotted lines:

- ..... molecules (x,y,z)
- ..... molecules (-x,-y,-z)
- ..... molecules (-x, $\frac{1}{2}$ +y,-z)
- ..... molecules (x, $\frac{1}{2}$ -y,z)
