

Regioselective Synthesis of 3-Acylindolizines and Benzo-Analogues via 1,3-Dipolar Cycloadditions of *N*-Ylides with Maleic Anhydride

Yun Liu,^{a,b} Yan Zhang,^a Yong-Miao Shen,^c Hong-Wen Hu^a and Jian-Hua Xu^{*a}

^a Institute of Chemistry and Chemical Engineering, Nanjing University, Nanjing 210093, PR China

^b Institute of Chemistry and Chemical Engineering, Xuzhou Normal University, Xuzhou 221116, PR China

^c Institute of Chemistry and Chemical Engineering, Shaoxing University, Shaoxing 312000, PR China

Electronic Supplementary Information

Table of Contents

1. ¹ H NMR spectra of all the compounds synthesized-----	S2–S22
2. ¹³ C NMR spectra of 6a , 6b , 6c , 7a , 7b , 7c , 7d and 7f -----	S23–S30

1. ¹H NMR Spectra of all the Compounds Synthesized

7g

7i

2. ^{13}C NMR spectra of 6a, 6b, 6c, 7a, 7b, 7c 7d and 7f
