J. Grant Collins^{a*} and Anthony I. Day^{a*}

Supplementary Information Figure 4

An example of the product distribution of HEABZ and ABZ-amine that occurs in the synthesis of HEABZ. The figure shows the aromatic region of the ¹H NMR spectrum (in CD₃OD) of a reaction of ABZ with ethanediol (A) and a spectrum of pure ABZ-amine (B). The respective H4 protons of HEABZ and ABZ-amine are indicated in spectrum A. In this reaction, the crude product contained 50% HEABZ.
