

Elaboration of drug nanocarrier based on glucosamine labeled amphiphilic polymer

Cédric Boyère^a, Nicolas Duhem^b, Antoine Debuigne^a, Véronique Prétat^b, Christine Jérôme^{*a}
and Raphaël Riva^a

Supporting Information

Figure S1. ¹H NMR spectra of cholesterol-PEG-OH, and after reaction with trifluoromethyl isocyanate

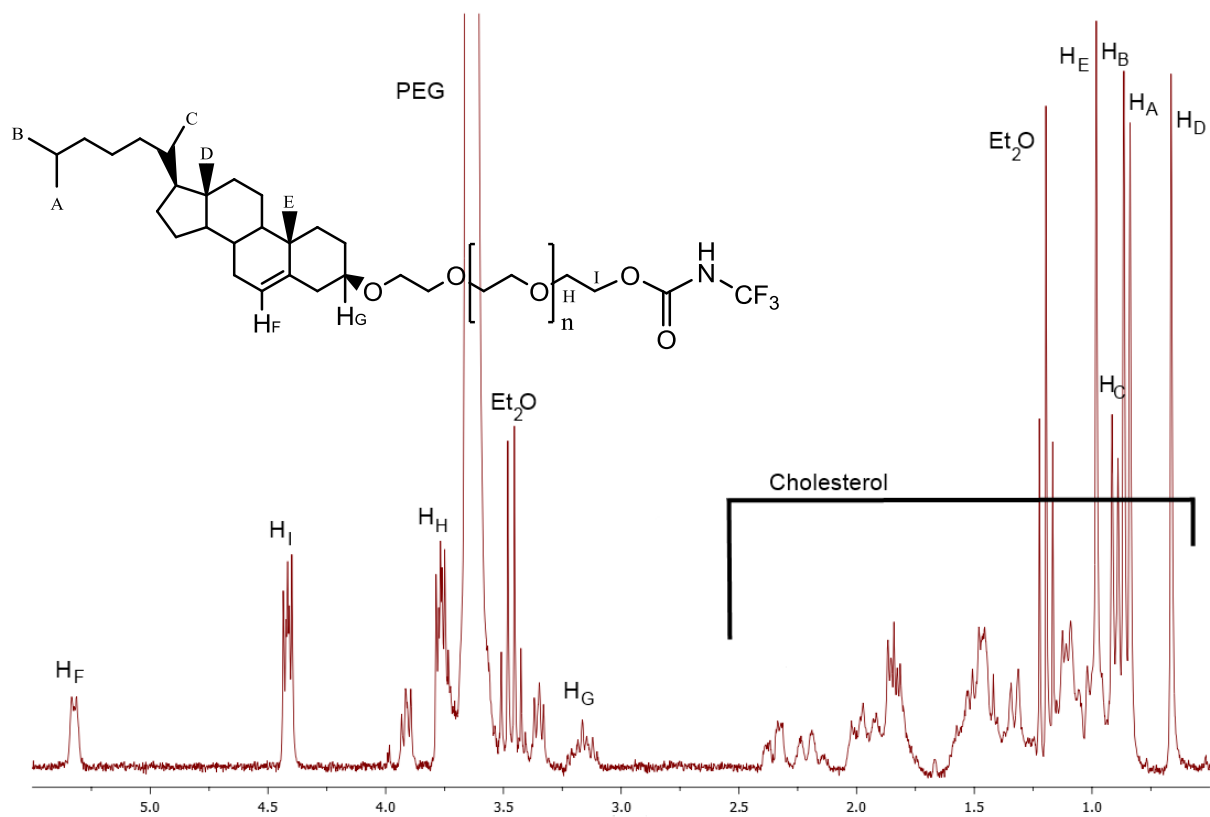

Figure S2. FT-IR spectrum of *N*-(*tert*-butoxycarbonyl)-6-*O*-(3-mercaptopropanoyl)-D-glucosamine
