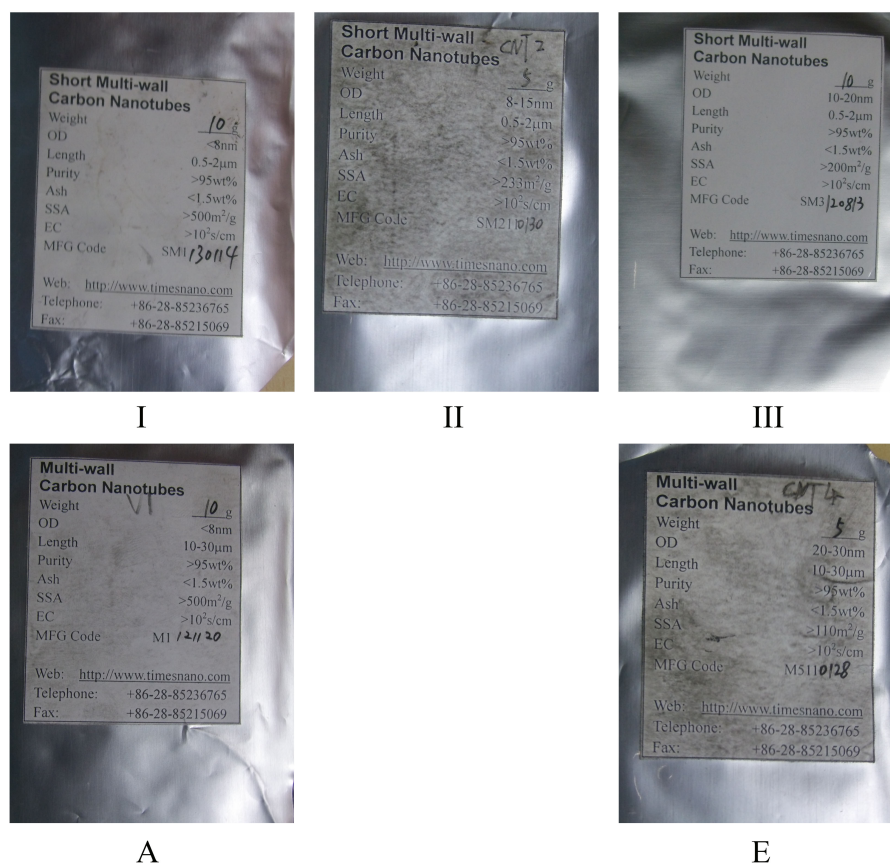

Figure S1. The structure and purity information of carbon nanotubes on packages.

Table S1. Ru concentration in residual solution.

entry	Ru concentration (mg L <sup>-1</sup> )			
	1.0	30.0	60.0	120.0
Ru/CNT- I	0.0351	0.0286	0.0203	0.0108
Ru/CNT- I (H <sub>2</sub> O)	0.0774	0.0309	0.0275	0.0187
