Figure S1. Thermal expansion curves of selected $\text{BaFe}_{1-x}\text{In}_x\text{O}_{3-\delta}$ materials recorded in dilatometry experiment.

Figure S2. O_2 -TPD profiles of $\text{BaFe}_{0.9}\text{In}_{0.1}\text{O}_{3-\delta}$ and $\text{BaFe}_{0.8}\text{In}_{0.2}\text{O}_{3-\delta}$ oxides.

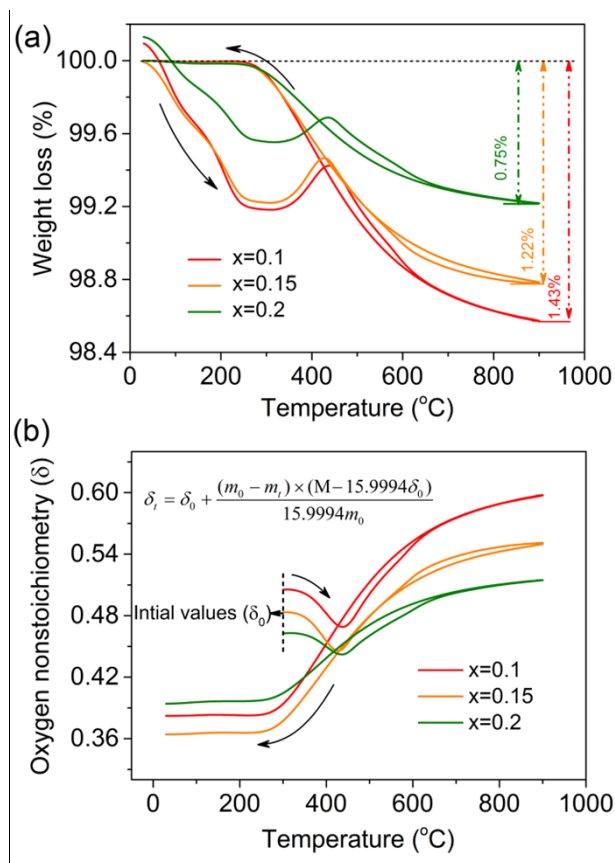

Figure S3. (a) Weight loss, and (b) calculated oxygen nonstoichiometry as a function of temperature for BaFe_{1-x}In_xO_{3-δ} (x = 0.1, 0.15 and 0.2) oxides in air. Please notice that in Fig. S3(a) final weight is taken as 100%.
