

ESI Table 1: Doses of ZYP and its controls used in this study.

Groups	n	Dose (g/kg/d)	Time of equivalent dose	Time of clinical dose
Rats				
Negative control group	21	-	-	-
Positive control group	21	0.015	-	-
Low dose-treated group	20	6	4	24
Moderate dose-treated group	21	12	8	48
High dose-treated group	22	24	16	96
Rabbits				
Negative control group	12	-	-	-
Positive control group	13	0.018	-	-
Low dose-treated group	12	1.5	2	6
Moderate dose-treated group	12	3.0	4	12
High dose-treated group	14	6.0	8	24

ZYP, Zishen Yutai pill.

Various doses of ZYP were administrated in the treated groups; physiological saline was used in the negative control group; cyclophosphomide was used in the positive control group. The equivalent doses of ZYP for rats and rabbits were 1.5 g/kg and 0.75g/kg, respectively.
